

NORDOX

Economical
Reliable
Efficient

75WG

Highest concentration

- Saves weight, freight and space

NORDOX 75WG is the most concentrated copper fungicide product available. Combined with its superior performance this means that less quantity is needed to obtain the best results. Needless to say, it is the most economical.

The particles in NORDOX 75WG are of optimal size, the majority ranging from 1 to 5 microns. Minimum 80 % are smaller than 2 microns.

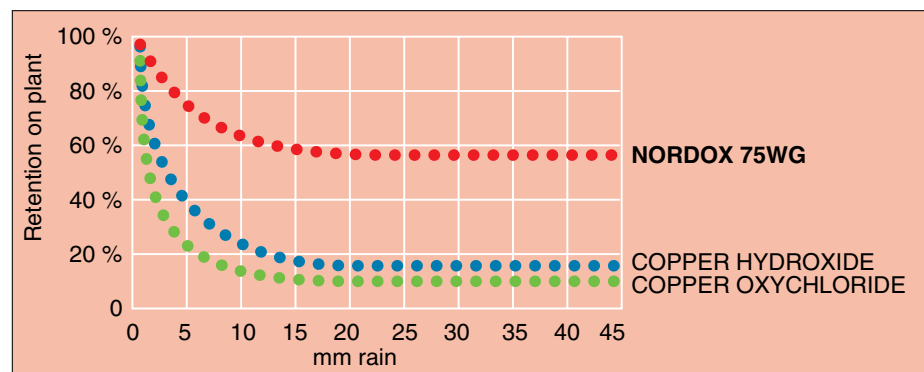

New generation

- User friendly
- No dust
- Very low or no hazard classification Ref. RTC*
- Easy to measure
- Superior suspensibility

Superior stickability

- Less waste
- Fewer sprays
- Reduced dosage rates
- Gentle to the environment
